Summary

I am having 8+ years of experience in Automation Testing using Selenium Web driver and Robot Framework with ISTQB Foundation Level Certification, I have developed Automation Test Scripts with Hybrid and BDD Automation Framework
(Cucumber) JavaScript and Java, (Spec Flow) using C# as well as Katalon Studio, proficient with Agile methodologies
and software development life cycle, Experienced Web-based and API Testing and a good understanding of ES6 Concept,
HTML, CSS, Typescript and Spring boot. I am well versed in CI/CD operation using Team City, Octopus and GitHub
Actions, Experienced in the Capital Market and Product Life-Cycle Management domain, United HealthCare Group.
I thoroughly enjoy working on complicated problems and taking the time to do the job the correct way. I also like
exposure to working independently and in a cross-functional team environment and interface with business users and
production support groups.
